

A. Marlena Keller

Saint Paul, MN | [Email](#) | [GitHub](#) | [LinkedIn](#)

Summary

Entry-level React developer with leadership experience and technical know-how. Previous experience includes analyzing and troubleshooting technical issues. Has worked collaboratively on projects to build full stack applications. Strengths include learning new technologies on the fly and project collaboration. Strong interpersonal and communication skills make me an invaluable team member. Recently earned a certificate through the University of Minnesota Full Stack Coding Bootcamp - equivalent to a 12-week internship. Enjoy cross-functional team efforts, taking on new challenges, and using technical skills to make positive impacts.
